# GETTING TO KNOW THE SECRETARY GENERAL

*Catherina Roggeveen aged 16*

## ***How do you feel and what made you want to join this special event at ISHMUN?***

I'm very excited for this event, as I have been involved with the organisation since October. I wanted to join the Board of Directors because I joined this MUN last year, and really enjoyed it. I wanted to recreate and improve upon the wonderful event from last year.

## ***What are you most excited for these 2 days?***

I am very excited to do my speech during the Opening Ceremony, as I am very passionate about the topic of justice. I spent a long time thinking about and writing the speech, so I am glad to see it all come together.

## ***If you had to pick one country and a specific issue at this ISHMUN, which would you pick and why?***

I would be in HRC as I find the question of the legality of euthanasia very interesting. I would represent the Czech Republic as that is an atheist country, therefore it's specific views relating to these matters are quite interesting and I would be keen on discussing these.

## ***Are you proud of your work and would you do this type of thing later in the future?***

I liked seeing how this conference has come together, and I believe I will be doing more of this in the future. I want to be a lawyer, a career where public speaking is very important. That is why I believe this MUN ties together very well with my career path.

## ***Warm Welcome from our SG:***

Hi everyone! Welcome to the newspaper of ISHMUN 2024. I hope all of you enjoyed the first day of ISHMUN. This is a little compilation made by the Press Team, I hope you enjoy your read!

## THEME

The role of justice in creating a fair society is this years theme at ISHMUN.

*"During these turbulent times, it is vital to discuss the role of justice in creating a fair society. Justice, as defined by the United Nations, is a basic principle of the rule of law. Therefore justice is the lens through which significant and influential decisions are made, both domestically and internationally. These decisions hold the power to alter the lives of thousands, for better or for worse. As, when justice is not applied as a guiding principle, people are unable to have their voice be heard, exercise their rights, challenge discrimination or hold decision-makers accountable. Limited access to justice fosters unfairness, giving reason as to why justice and fairness are the core themes of this conference."*
